Applicant's election of Group V, drawn to a method of eliciting an antibody response is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). That is, applicants essentially assert that a serious search burden has not been established, however, the examiner's reasons for requiring the restriction have not been addressed.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Please cancel non-elected claims 1-17 and 19 without prejudice.

Dagan et al. is cited as of interest.
